Pumpkin Apple Fall Facial

“Empowering and inspiring skin care professionals to advance is at the heart of everything we do at Rhonda Allison Skin Care. We believe no two skins are the same and real results are only delivered through a customized approach to skin care, using fresh ingredients backed by science.”

Shannon Easu, CEO of Rhonda Allison Skin Care

Rhonda Allison's Pumpkin Apple Fall Peel uses the natural benefits of apples and pumpkin to firm and tone for a refined look while nourishing and brightening dull, dry summer skin. Skin will love the pro-youth benefits and will appear brighter, smoother, and more radiant in time for the holidays.

Rhonda Allison's Pumpkin Apple Fall Peel is the perfect antidote for dry, dull, photo-aged skin, as it is packed with ingredients that smooth, tighten, and hydrate the skin for weeks on end. This rejuvenating peel starts with the Foaming Peptide Cleanser to infuse the skin with a potent dose of vitamins, calcium, and minerals. The Pumpkin Cleanser removes remaining surface residue and further nourishes the skin with its high concentration of vitamin A and antioxidants.

The pre-peel application, which consists of the Cell Conditioner and Pumpkin Parfait Enzyme, will stimulate collagen activity, reduce inflammation, dissolve surface skin cells, and deliver antioxidant support to smooth, protect, and nourish the skin.

The Melanin Suppressant Solution is then applied to reduce melanin production and brighten the complexion. After

this is absorbed, the Apple Wine Peel is applied to stimulate cell regeneration, provide further anti-inflammatory support, and firm, tone, and tighten the skin.

For the daytime, the treatment can finish with a mineral-based protection formula, like Daytime Defense SPF 30, or if later in the day, the Omega 6 EFA, which provides the skin with a boost of hydration.
