

JAR DECONSTRUCTED

For brightening, look to Rhonda Allison's Lotus Peel, which is a step up from the Jessner peel. This brightening peel offers anti-inflammatory and natural

lightening benefits with less damage on a molecular level from free-radical stress. With the added benefits of salicylic and gluconic acid, this advanced Jessner peel is a gentle solution for those with sensitive skin.

lightening benefits with less damage on a molecular level from free-radical stress. With the added benefits of salicylic and gluconic acid, this advanced Jessner peel is a gentle solution for those with sensitive skin.

Éminence uses lotus to treat the skin at night with its Lotus Detoxifying Overnight Treatment. In the product, lotus exfoliates, hydrates and protects the skin from drying environmental stressors while improving skin elasticity. A blend of microgreens is also included to protect against the drying effects of environmental stressors and reduces the signs of aging.

Lotus is included in a combination of five flowers from Bali to eliminate toxins and brighten the complexion in Cinq Mondes' Kaolin and Flowers Mask. Clay is formulated into the mask to absorb oil and impurities, while a combination of lotus, ylang ylang, gardenia, hibiscus and frangipani

to activate lipolysis and draining effects for anti-cellulite applications.

In the Spa

The spa industry loves lotus, so much so that you can find spas all

and nourish the skin.
