

# Rhonda Allison's Arnica Therapy

FROM THE LOUNGE

Posted: May 30, 2019

Arnica Therapy has a creamy, balm texture, and it is designed to be used after procedures to help soothe and cool the skin. This therapy cream helps to reduce inflammation, speed healing and decrease pain. The Arnica Montana flower that this cream is formulated with helps to provide natural antibacterial and anti-inflammatory benefits to aid with skin conditions like acne, rosacea and eczema.

## Key Ingredients

- Arnica Montana flower extract
- Mugwort
- Algae extract
- Lysine
- Arginine
- Aloe
- Tatarol
