

PUMPKIN APPLE FALL PEEL

PREP THE SKIN

Cleanse the skin with **Foaming Peptide Cleanser** for several minutes. Rinse thoroughly with warm water and 4x4 gauze.

Do a second cleanse with **Pumpkin Cleanser**. Work into skin thoroughly. Remove with tepid water and 4x4 gauze. Do several rinses. Pat skin dry.

PRE-PEEL APPLICATION – HAND FAN TO CLIENT

Wear surgical gloves. Cover client's eyes with eye pads.

Saturate 2x2 gauze with **Cell Conditioner**. Apply an even amount to face and neck using the RA Technique. Let product absorb and remain on skin.

Dispense 1 teaspoon of **Pumpkin Parfait Enzyme** into glass beaker. Using a firm, square brush, apply a thin, even amount to face and neck using the RA Technique. Leave on skin for 10 minutes.

Rinse thoroughly with tepid water and 4x4 gauze. Pat skin dry.

PEEL APPLICATION

Saturate 2x2 gauze with **Melanin Suppressant Solution**. Apply an even amount to face and neck using the RA Technique. Let product absorb and remain on skin.

Dispense 2-3 droppers of **Apple Wine Peel** into glass beaker. Saturate 2x2 gauze with peel solution and apply to face and neck using the RA Technique. Let product absorb and watch the skin for 5 minutes.

Re-saturate 2x2 gauze with remaining solution. Apply a second layer to face and neck using the RA Crisscross Technique. Let product absorb and remain on skin.

2nd PEEL APPLICATION

Dispense 1 dropper of **Vitamin A+ Peptide Peel** on each for the following areas: forehead, each cheek, chin and neck. Gently work into skin with gloved hands until mostly absorbed. This solution stays on the skin.

FINISHING APPLICATION

Daytime Defense SPF30 may be applied if early in the day or **Omega 6 EFA** if client will be able to sleep in peel.

Have client sit up, offer a drink of water and wait for 5-10 minutes before leaving.
